

Open (Plots 30, 75)

Forested (Plots 250, 900, 1900)

Bottom layers (50-150cm)

Bacteria: 46.3%
Archaea: 0.0%
Fungi: 53.7%

The figure displays a complex network graph illustrating relationships between various bacterial and fungal families. Nodes are represented by colored circles, and connections are shown as gray lines. Key clusters and labels include:

- Top Left Cluster (Teal):** Thermacetogeniaceae, Aspergillaceae, Tetragoniomycetaceae, Trichocomaceae (multiple occurrences), Xanthobacteraceae.
- Middle Left Cluster (Teal):** Thermacetogeniaceae, Trichocomaceae (multiple occurrences), Xanthobacteraceae, Paenibacillaceae, Alicyclobacillaceae.
- Bottom Left Cluster (Brown):** Alicyclobacillaceae (multiple occurrences).
- Bottom Center Cluster (Yellow):** Sporomusaceae (multiple occurrences).
- Right Side Cluster (Teal):** Mycobacteriaceae, Aspergillaceae, Coniochaetaceae, Sporocadaceae, Xanthobacteraceae, Aspergillaceae, Alicyclobacillaceae, Sulfobacillaceae.
- Bottom Right Cluster (Yellow):** Sporomusaceae, Bacillaceae, Sporomusaceae.
